

THE TRACKING TAG WILL
RECORD THE SHARK'S
MOVEMENT AND HABITS.

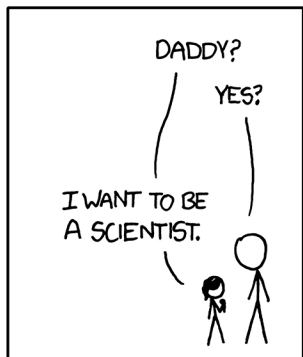

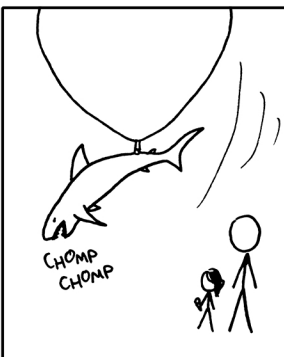

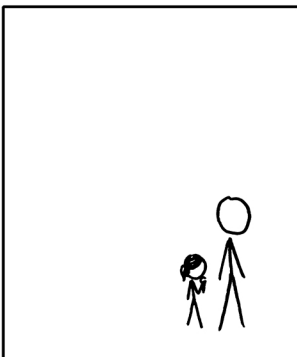

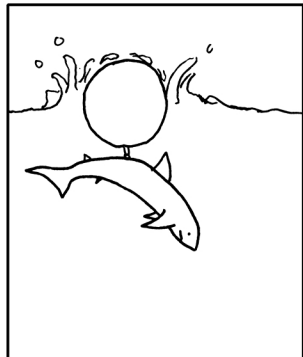

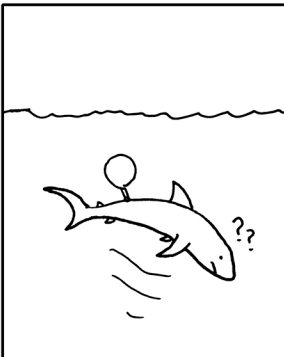

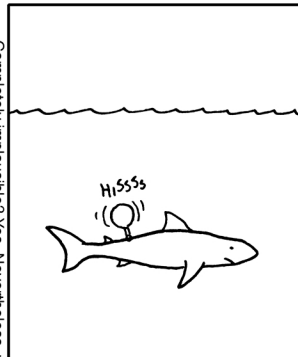

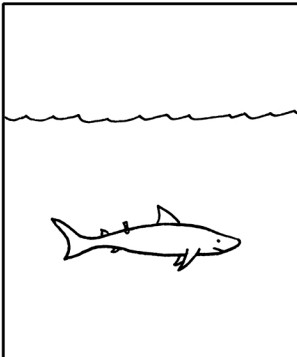

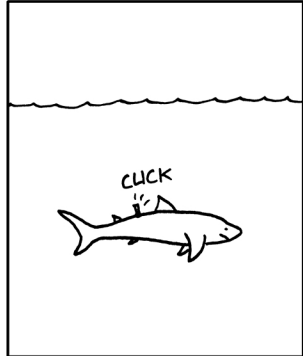

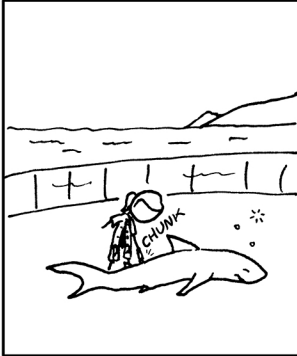

THEN, IT WILL POP
FREE AND FLOAT
TO THE SURFACE.

WE CAN'T AFFORD A
RECOVERY PROGRAM,
SO THE CAPSULES WILL
INFLATE HELIUM BALLOONS,
DRIFT OVER LAND,

AND HOPEFULLY BE
FOUND AND MAILED TO US.
ANY QUESTIONS?

Completely implausible? Yes. Nevertheless, worth keeping a can of shark repellent next to the bed.
